

Features:

- Responsive Design

The layout is built to look great on any device whether you're browsing on a phone, tablet, or desktop, everything adapts perfectly.

- Interactive Elements

It has smooth animations to hover effects, every interaction feels responsive.

- Expandable Content

Posts expand right in place, letting you read more without ever leaving the page.

Technologies Used:

This project was built using modern web technologies like HTML, CSS, and JavaScript

Running Locally:

To make this run locally:

- make a repository on github.
- Clone the repository

```
git clone https://github.com/FrouFroi/travelwebsite.git
```

- Navigate to the project directory

```
cd travelwebsite.git
```

- Push it

Add, commit, and push your changes:

```
git add --all
```

```
git commit -m "Initial commit"
```

```
git push -u origin main
```

- Open index.html in your browser
